

Talent Yield Coalition Inc

Alpha Omega Program

Phase One-SHELTER

The Marcelous-Williams Home

Talent Yield Coalition Inc

HISTORY OF THE ORGANIZATION

Talent Yield Coalition, Inc was organized in the spring of 1990, as a 501© 3.

As a non-profit organization, the **objectives** were to provide structured programs and resources to children normally involved in street activities. Projects ranged from tutorial, drug and alcohol prevention, medical awareness, entrepreneurial development, problem solving, citizenship and cultural awareness, and mentorship to recreation.

FUTURE PROJECTS of Talent Yield Coalition, Inc **THE ALPHA OMEGA SYSTEM**

The **Alpha Omega System** provides a networking conduit between all social service agencies providing resources and services to a much larger group '**the disenfranchised**' ie the homeless, disabled, elderly, ex-felons, etc. Our approach for a successful program is based on the premise- ***facilitating from beginning to end*** 'all' of the social, physical and mental needs for that client.

That means working with existing communities, i.e.. churches, government agencies, and non profits to offer basic needs such as shelter, training for life skills, education, and employment for economic wealth to those affected by social needs such as crime, drugs, poverty, hunger, illiteracy, homelessness, pregnancy, unemployment, and health issues.

Thus, the end result is a productive and successful individual in our community.
